Active Shooter Training

The District may include in its teacher and school employee training a component on how to respond to students who provided them with information about a threatening situation.

In addition, such training may include how to respond to situations in which there is a potentially dangerous or armed intruder or active shooter in the school.

If such training is utilized, it will be provided annually for a period of approximately four hours.

All school personnel will participate in a simulated active shooter and intruder drill conducted by law enforcement officials.

The District will foster an environment in which students feel comfortable sharing information they have regarding potentially threatening or dangerous situation with a responsible adult.
