Community Use of the Weight Room

Green City R-1 allows adult community members access to the weight room. Treadmills and weight lifting equipment are typically available outside of school hours. The cost to use the weight room is \$60 (plus a \$20 key fee) for a one-year membership (August-July of each year.) Additional adults within the home can also join for a \$20 fee.

Individuals interested in obtaining a membership should reach out to Lindsay Moore for more information.

Ways to Stay Updated on What Is Happening at School

Be sure to follow our school Facebook page to stay up-to-date on activities happening within the school district. For individuals who do not have a Facebook account, all items posted to our social media accounts can be found on the homepage of the school website. Scroll to the bottom to access this information.

Winter Weather

The winter weather arrived with a vengeance in January. I greatly appreciate the flexibility that all families showed with the multiple days of early-outs, late starts, and cancelled school. We know that it is inconvenient for families when school is not in session, but due to the conditions of our secondary roads, it was just not possible for buses to travel safely.

Special recognition needs to be given to Jim Thomas. He spent hours checking roads, both early of a morning and late into the evenings. He also spent the better part of 2 extremely cold days, working to get our buses up and started. The diesel engines in our buses do not like the cold weather.

The maintenance department of JD Vernott, Billy White, and Judy True also did a great job of working on the facilities ensuring that parking, walkways, and other areas were free of snow.

Our school calendar is built to include all of the “snow days.” At this time, we will NOT be adding any additional days to the school year. The calendar that is posted on the school website is an accurate representation of the days school will be in session for the remainder of the school year.
